NUMBER 42

CHILLIWACK IS URGED TO LINK WITH O. U. G.

Okanagan Selling Agency Would Co-operate With Small Fruit Growers

Mr. R. M. Hood, Vancouver representative of the Okanagan United Growers, met at Chilliwack a joint meeting of the Producers' Exchange, the Fruit Growers' Association and the Poultry Association, three Chilliwack organizations, and spoke to them of the advantages to be gained by affiliating with the Okanagan association, the methods of marketing fruit and vegetables and the growth of the Okanagan United Growers. He explained to them that the O. U. G. sold 70 per cent of the produce of the Okanagan Valley without the aid of brokers and were now able to establish prices. At one time they followed the prices set in the States, but that now the States waited for the B. C. price. Mr. Hood advised affiliation with the O. U. G., when the district would be represented on the directorate, while the shareholders would hold influence with their own local association only.

In answer to questions, Mr. Hood stated that the Hatzic pre-cooling plant cost about \$4,000, and in two hours and twenty minutes would cool a carload of raspberries to 36 degrees. Cold air was drawn through the ice chamber and would draw from 200 to 400 lbs. of moisture from the car in that time.

Small fruits are needed for sale by the Okanagan Growers. Few small fruits are grown in the interior, said the speaker, and the association required a small fruit district to round out the order lists of the agents on the prairies. For that reason, they would welcome the co-operation of the Chilliwack valley. The producers should endeavor to get into the straight carload class and to do that they would have to work together. Fiddling along alone would get them nowhere. Once the marketing was arranged the production would follow.

FINDLAY ADMITS HE EXPORTED LIQUOR

An admission that he had exported 350 cases of G. and W. whiskey to the state of Washington as a private venture, has been made by the ex-prohibition commissioner, Walter C. Findlay, in his evidence at the assizes in the course of the prosecution of H. J. Stump on a charge of being in possession of a quantity of stolen liquor. H. J. Stump was acquitted by a jury from the charge of being in possession of 51 cases of stolen whiskey. The theory of the Crown was that the liquor was part of the 350 cases of whiskey illegally imported by ex-prohibition Commissioner W. C. Findlay and allegedly stolen from Findlay's private warehouse on Hamilton street.

Although the accused was acquitted, the Crown will retain possession of the liquor, as its removal was a violation of the Prohibition Act. Mr. Max Grossman appeared for Stump and Mr. D. A. McDonald, K.C., for the Crown.

AUSTRIANS TO BE NEXT TO SIGN PEACE TERMS

Preparations were begun at St. Germain last Saturday for the reception of the Austrian peace delegates. Although no date has been set for their arrival, the activity was accepted as indicating they will come before the German delegation leaves Versailles. St. Germain is located on the Seine, seven miles north of Versailles and ten miles northwest of Paris. According to recent information, the separate treaties with Austria, Turkey and Bulgaria are to be taken up in succession immediately after the Germans receive the terms of the pact they must sign.

The same conditions are expected to govern the signing of these treaties as will be followed in disposing of the German pact.

Thirty-six Chinese were deported from Vancouver last Thursday night to their native land, after they had failed to enter Canada as would-be college students. They appealed to Ottawa, but officials there refused to interfere.

C. N. R. ENGINEERS

Staff of Officials Have Taken Quar- ters for the Summer in Vernon

Mr. H. F. Silverthorn, of the C.N.R. engineering staff, with a complement of about half a dozen surveying officials, is now definitely located in Vernon and district, for the purpose of opening a temporary office there and for re-running the survey line in connection with the branch to be constructed from Kamloops, through Vernon, to Kelowna, with a spur to Lumby.

All the officials are returned soldiers, having done overseas service either with the railway troops or the engineers, and it is to be the policy to give work of this character to returned men who are competent to carry out the duties.

This particular force will start operations, preparing for construction work, south of Vernon, leaving the matter of the right-of-way through the city proper for future settlement. It is not likely there will be any great changes made in re-running the line, and if any alteration is made it will be a matter of a few feet only. Mr. Silverthorn expects to be in the district all summer. Major Swan, the divisional engineer, is expected from Vancouver in a day or two.

Rutland Asks for New Road Superintendent

Endeavor Made to Hasten Installation of Weigh Scales

The meeting of the Rutland U. F. B. C. on Monday evening was not so well attended as the previous ones had been, presumably owing to the fact that everyone was so busy, still, a good deal of important work was transacted. Owing to the absence of the president, Mr. C. H. Bond, the chair was taken by Mr. S. T. Elliott, who ran the business of the evening in his customary snappy style. The correspondence was read and filed with little discussion, then the question of roads and road superintendent was brought up. Everyone felt that owing to the utter lack of systematic repair, or in fact work of any kind, they were fully justified in passing the following resolution: "Whereas, this Rutland local of the U. F. B. C. has repeatedly drawn the attention of the government, through their secretary, to the deplorable condition in this district, and whereas, nothing has as yet been attempted to remedy the present state of affairs; therefore, be it resolved that we, as a united body, request the Minister of Public Works to remove from office the present road superintendent and to appoint a more capable and efficient person to that position."

Another matter discussed was that of the installation of the scales, which have now been here for a couple of months. It was found that the chief cause of delay in their erection was the fact that there was no specific organization to deal with the matter. In order to remedy this, a meeting of the shareholders in the scales has been called (by W. R. Craig, who was appointed convener) for Monday night next, in the school house, at 8 o'clock. A full attendance is requested.

JOIN THE CROW HUNTERS THURSDAY AFTERNOON

A meeting of prospective crow hunters held on Tuesday evening decided that all those who wished to join in the organized crow hunt should meet outside the Provincial Court House on Thursday afternoon at 1:30. Two captains have been appointed, Mr. J. B. Knowles and Mr. W. Harvey. Several automobiles have been promised, and the captains will fill up cars and dispatch them to different districts as soon as the sportsmen arrive. Those who are unable to join the shooting parties are free to make up their own, but all are asked to report the result of the day to Const. Graham. Gun licenses are not required for that day for crow shooting only.

ALWYN WEDDELL BACK IN CUSTOMS OFFICE

Kelowna has a new Customs officer this week, or rather has an old one back again. Mr. Alwyn Weddell, who resigned his position in the Customs office to go overseas, took his old stand at the receipt of Customs on Monday. Mr. and Mrs. Trodden and child left the following day for the Coast.

I.O.D.E. Will Increase Membership to Fifty

Jack McMillan Chapter Plans Industrious Season

For the short time that the Jack McMillan Chapter of the I. O. D. E. has been organized, they have done valuable work and made good headway, and now they are planning to raise money for the Kelowna District Memorial Fund and any other urgent needs that may arise which come within the scope of their attention. Their regular monthly meeting was held last Monday at the home of Mrs. Chas. Dick, and next Saturday the members are serving tea and ice cream in the Wesley Hall. They are also planning for a large bazaar to be held about November 15. Members also meet once a week to sew.

When this chapter was formed, the membership was limited to 25 on account of meetings being held in the homes of the members, but now that suitable rooms may soon be obtained the membership has been increased to 50. Any women who are British subjects are eligible for membership, and the secretary, Mrs. Byron McDonald, would be pleased to have the names of any ladies who desire to join. If they phone or write, either the secretary or the regent, Mrs. Telford, their names will be presented at the next meeting on June 2.

TEACHERS AND TRUSTEES CONFER ON SALARIES

In the Kelowna High School last Saturday, the executive of the Okanagan School Trustees' Association met a deputation from the Okanagan Teachers' Association in a conference on the subject of teachers' salaries.

There was a very frank and friendly discussion. The teachers were not prepared to make any suggestions on the construction of a schedule of salaries, but they advocated a percentage increase to tide over the present high cost of living and they suggested that the question of a schedule be left over till next fall. Both trustees and teachers were emphatic in declaring that no consideration should be shown to teachers who were doing inefficient work. If the teachers were to be protected in their interests the public must also be protected. As an outcome of the meeting a recommendation will be sent to all the school boards in the Okanagan district that teachers should be notified as early in May as possible what their salaries were to be next September. There was a general feeling among the trustees that salaries should be increased.

RUTLAND GENERAL NEWS

On Saturday, Mr. and Mrs. Price, in company with Mr. and Mrs. Monford and their daughter, Zella, motored through to Enderby, spending the week-end visiting friends there. They say that the season is even later in that district than it is around here.

On the same day, Mr. and Mrs. Schell started out for Princeton on a short visit to Mrs. Schell's brother, Percy Bird.

The Rev. Mr. Connal left for the Coast on Monday in connection with church affairs, ostensibly to attend a meeting of the senate of the Presbyterian Church, which meets this week. He expects to return to Rutland as soon as this business is finished.

Early this week Mr. Bond suffered some considerable loss and annoyance by a washout in the irrigation ditch of the central system which runs just above his place. The ditch became clogged with debris of various kinds, causing the water to overflow and tear down the side hill, washing away the soil at a great rate.

On Wednesday, Rev. T. Griffiths and W. H. Fleming went to Vernon to attend the district meeting of the Methodist Church.

Mrs. A. W. Dalgleish and Verna returned from the Coast on Monday. Verna has been taking a course in music.

During the week-end, two more very interesting football matches have been played. The first one on Saturday, was with Ellison, and as was expected, was a close and well contested game, the visitors having several new players on this time. During the first few minutes of play it looked like their game, for within 10

Cruelty to Animals Case Is Dismissed

Prosecution by Local S. P. C. A. Fails to Make Good

The first prosecution by the newly formed branch of the Society for the Prevention of Cruelty to Animals took place in the City Police Court last Friday morning, but only to result in the case being dismissed. The accused, Russell Clark, was charged with cruelly ill-treating a horse by working it while in an unfit state. The S. P. C. A. was represented in the Court by Messrs. L. Hayman, D. H. Rattenbury and R. A. Pease. The former, who prosecuted, claimed that Clark had worked the horse when it was sick and not taking its feed, and, further, that he had thrashed the horse with a big piece of board or club. The accused pleaded not guilty and denied all knowledge of the alleged cruelty and claimed he did not know the horse was sick. The S. P. C. A. produced three witnesses, Miss Bay DeHart, Mr. G. W. Cunningham and Mr. Hughes. As the charge was not proved, Magistrate Weddell dismissed the case, ordering the prosecution to pay the costs, which amounted to \$5.00.

It was noticeable in the evidence that the horse had died after being worked.

VERNON WILL RAISE TAX ON TRANSIENT TRADER

The Vernon Board of Trade is appealing to the council of that city to increase the transient traders' tax. This tax is at present \$100 for every six months, while prior to the war it had been \$500 for every six months. During the construction period of the C. N. R. branch, it was claimed that the city would probably be flooded with transient traders, and for the benefit of those merchants who had been living in the city during the times of depression and contributing steadily to the city's revenue it was felt that a stiffer license fee should be provided for in the by-law. Previous to 1914 the tax had been \$500 for six months. In that year it had been reduced to \$250 for six months, and later to \$100 for six months at which it now stands. The corresponding license for the City of Kelowna is only \$50 for six months. The Vernon Board of Trade urged that better protection should be afforded merchants against the transient trader. The council recognized the justness of the claim and appointed a special committee to deal with the matter and report.

PENTICTON WINS BALL GAME

Kelowna Again on Short End of Score in Last Thursday's Game

Penticton won from Kelowna in the baseball game played on the Park grounds, Thursday, May 1. The game promised to be a real contest up to the fourth inning, when Penticton took the lead and from that on blanked the locals. The game was 1-1 at the beginning of the fourth; in this inning Penticton scored another, getting two more in the seventh and one more in the ninth, making their total 5. Kelowna scored a run early in the game and let it go at that, the final tally showing 5-1 against the home team.

The boys from the lake-end town played a steady game from start to finish, while the locals were a little unsteady at times, errors at critical periods of the game having a lot to do with losing. A very unfavorable wind was blowing which interfered with the play to some extent.

With consistent practice and a strengthening of a couple of weak spots, the Kelowna team should make a better showing as the season advances. Following is the line-up: Penticton—Mirshak, p; J. Castner, c; Larsen, 1b; McPeak, 2b; Maze, 3b; Swimme, ss; Nagle, rf; Ramsay, cf; Long, lf.

Kelowna—Thayer, 2b; Hereron, 1b; Roth, 3b; Patterson, c; Berrard, rf; DeHart, p; Anderson, cf; Kincaid, ss; Carney, lf.

Oddfellows Attend Centennial Service

In spite of the disagreeable weather which was prevailing, a goodly number of local Oddfellows paraded to the United Church, last Sunday morning, where the Centennial anniversary service of the order was conducted by Rev. E. D. Braden. A number of visiting brothers from Vernon and Armstrong took part in the celebration. They were joined at the church by local and visiting Rebekahs. After a short invocation and the singing of the hymn, "All Hail the Power of Jesus' Name," the pastor of the church, Rev. E. D. Braden, opened the service with a brief prayer. A beautiful anthem, "Awake! Awake! O Zion," was rendered by the choir. A very appropriate address was given by the preacher, preceded by a solo, "Come Jesus, Redeemer," rendered by Mrs. E. D. Braden. The singing of "Blest Be the Tie That Binds" concluded a very inspiring service.

The Oddfellows and Rebekahs returned to the lodge room where a short service of the order was held, and a collection taken up in aid of the Oddfellows' Home.

IMPERIAL PREFERENCE RECEIVES A WELCOME

General Feeling of Satisfaction in Dominion Circles at Plan to Make Empire Self-Supporting

There is a general feeling of satisfaction in Dominion circles in regard to the movement toward Imperial preference.

Sir George Perley, Canadian High Commissioner, says the government and people of Canada will be much pleased at Great Britain's adopting the principle of empire preference. He is of the opinion it will cause increased trade between the various parts of the Empire and afford Canada an opportunity of supplying the British markets with goods which formerly came from enemy countries. Sir George says it is a step toward making the Empire self-supporting.

Mr. Schreiner, agent-general for South Africa, said that all the peoples of South Africa would welcome this step in a direction in which they had long hoped to see the Mother Country moving. It afforded an opportunity for South African wines and spirits, and would likely be productive of great mutual benefit. He hoped the step would result in strengthening Empire relations.

Mr. Mackenzie, agent-general for New Zealand, said the step was in the direction of the aspirations of New Zealand and hoped the new departure which at present was limited would develop. Anyhow, it would enable the British people to negotiate with other nations on a more equitable basis.

The City of Vernon has reduced its proposed tax rate for the current year from 36 to 34 mills.

REGISTRATION OF FRUIT PICKERS HAS STARTED

Labor Bureaux Makes Call for Harvesters for 1919

Registration started at the Coast, at Vancouver and Victoria, on Monday, for the registration of the fruit pickers and harvesters of British Columbia for the summer of 1919. It was in the summer of 1917 that the women and girls of British Columbia and of Ontario were called to harvest the fruits of the two provinces as a war measure. They performed their task with such energy and so much capability that it now appears they will become a permanency in this work. In the past two summers in British Columbia the enrollment of the girls was undertaken, using the Y. W. C. A. as a registration bureau, etc. The Y. W. C. A. acted in the first summer in conjunction with the agricultural department and in the second summer under the newly authorized labor department. This year the labor bureaux are organized, and it is through the women's branches that the registration and distribution will be handled. Arrangements made so far are only for the early small fruit crops of the coast districts, principally strawberries, and registrations taken at present will be confined to the needs of this crop, the number being limited accordingly. Enlistments for the apple and soft fruit harvests will be taken later as the requirements are made known.

Strawberry pickers are to have a guaranteed minimum of \$1.50 per day, six days per week, but a grower who has a poor patch has to pay at a higher rate to compensate the picker. Rates for picking the fruits of the Okanagan districts will be made later.

Strawberry pickers are to have a guaranteed minimum of \$1.50 per day, six days per week, but a grower who has a poor patch has to pay at a higher rate to compensate the picker. Rates for picking the fruits of the Okanagan districts will be made later.

APPOINTED SUPERVISOR OF SETTLEMENT BOARD

Mr. Jas. Inglis returned from the Coast this week and announced that during his stay there he had been appointed as Field Supervisor of the Soldier Settlement Board of Canada, with a territory extending from Kamloops south to Keremeos. Any returned soldiers or other beneficiaries under the Soldier Settlement Act should keep in touch with him, as he is in a position to give the necessary information.

BIG EXHIBITION OF FLYING IS PLANNED

Vancouver Will Have Record Display on May 24

What is expected will be one of the greatest aerial exhibitions ever held in the Dominion has been arranged by the Aerial League of Canada to be held in Vancouver on Victoria Day, May 24. Two cars bearing four Curtiss airplanes are rolling west now, timed to arrive in Vancouver next Saturday. They will be fitted up, and with the plane which is already at Minoru Park and possibly the one now in Victoria, will give an exhibition of flying such as this part of Canada has never before seen.

The exhibition, which will be held at Minoru Park, will include a sham battle in the air and a race from Ladner to the park with at least five planes competing. The winner of the race will be given a Curtiss airplane with the understanding that he, in turn, will donate it to the Aerial League of Canada.

That is a summary of the arrangements which have been made between Mr. C. W. Diffin, representing the purchasers of the Royal Air Force training planes in Canada, and the Aerial League of Canada. He stated also that he was prepared to make a similar offer to the Victoria branch of the Aerial League.

TO DISPOSE OF 1918 WESTERN WHEAT

Western Canada's wheat crop residue from last year, amounting to about 15,000,000 bushels, will be ground into flour speedily and shipped to Great Britain and her allies, it has been announced authoritatively. Much of this wheat will be ground in western mills, it was declared. The wheat will be purchased at the fixed price of \$2.24 1/2 a bushel, which will continue in effect this year.

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that Black Mountain Water Company, Limited, whose address is Rutland, B. C., will apply for a license to take and use one-half (½) cubic feet per second of water out of Eight Mile Creek, which flows south and drains into Mission Creek about 12 miles from its mouth. The water will be diverted from the stream at a point about 7 chains north of the centre of Section 15, Township 27, and will be used for waterworks purpose upon the land described below. This notice was posted on the ground on April 8th, 1910. A copy of this notice and an application pursuant thereto, and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within 30 days after the first appearance of this notice in a local newspaper.

Tp. 27—N. half Sec. 7, N.W. quarter Sec. 8, N. half Sec. 9, W. half of N.W. quarter Sec. 10, S.W. quarter Sec. 15, S. half Sec. 16, Sections 17, 18, 19.
Tp. 26—E. half Sec. 11, Sections 12, 13, 14, E. half Sec. 23, W. half Sec. 24.
The petition for the approval of the undertaking will be heard in the office of the Board at a date to be fixed by the Comptroller. Any interested person may file an objection thereto in the office of the Comptroller or of the Water Recorder at Vernon, B. C. The date of the first publication of this notice is April 10th, 1910.

BLACK MOUNTAIN WATER COMPANY, LIMITED,
Applicant.
42-3c E. M. Carruthers, Agent.

Marcellus Junior

Is a bay stallion with four white legs and a white blaze down face. He stands 17 hands high and is one of the best Clydesdale stallions ever brought into B. C.

For his age and weight he is remarkably active, very stylish and a good mover all round. He is a deep-bodied horse with the shortest of backs and the best of legs and feet.

As a stock getter, he is both sure and vigorous, and reproduces himself in his progeny.

MARCELLUS JUNIOR was imported direct from Scotland by Mr. S. O'Neill, Vancouver, and sold to the Steptoe Ranch, Enderby, where several of his colts can be seen.

In the show-ring he has never been beaten and he cleared up both cup and Grand Championship at Seattle and Victoria.

This Horse will travel the BENVOLIN, KELOWNA, MISSION, K. L. O., RUTLAND AND ELLISON DISTRICTS.

Exact route will be published later.

THURSDAY, MAY 8, 1919

Orchard Run

The Vernon Board of Trade is going hard after the transient trader and they have enlisted the sympathy of the city council there. A transient trader's license in Vernon for the last year or two has been costing \$100 every six months and they are contemplating putting it back to the old figure of \$500 every six months. Vernon believes that with the construction of the new railway to Kelowna the city will be swamped with these people and they want to be rid of them as soon as they can, recognizing the drawback which they are to the district and community. When these men are forced to leave Vernon, where will they go? Perhaps Kelowna would put the question better by asking, "How will they come?" Naturally, these men, as they are turned out of Vernon, will hasten down to Kelowna, to the detriment of the Kelowna manufacturer and merchant. It is of the utmost importance to the home trade of a district that the transient trader be kept away, not because the home store cannot compete with the visitor on the same class of goods, but because the man from the East selling to the consumer can invariably produce an article of much inferior quality. Poor quality goods, which are naturally low priced goods, always meet with a ready sale by the manufacturer, so that they are all bought by the first few jobbers solicited, consequently they are seldom, if ever, offered by the manufacturer or wholesaler to the western trade, being all bought up in the East. This is what gives the transient trader from the East the advantage. He can bring along these shoddy or poorly made goods and sell them here at slightly under the price of the better quality article. The price may be 10 per cent cheaper than the lowest figure for goods of the same name here, but the quality or workmanship is invariably 25 per cent under. Thus, when the transient trader makes a sale, the consumer is usually worse off, the home merchant misses a sale, the district is poorer.

It is easy to frame a by-law under the ruling of the Municipal Act imposing a license on transient traders, but it is another matter to catch them. That is one of the reasons why Vernon will make the license a high one, for then the transient trader is not so likely to take the chance of being caught, the penalty being too high to take the risk. Armstrong and Enderby have also been keeping a sharp look-out for these gentlemen, and Penticton long ago declared open warfare on them. If the whole Valley works hand in hand in an attempt to keep these people away from the doors of the consumer they will seldom find it pay them to make the venture. After all, the Okanagan Valley is essentially one district, the prosperity of the whole Valley lies in each town in the Valley, and each town is assisted by the prosperity of the other towns. No doubt the Retail Merchants' Section of the Board of Trade here will support the other cities in their effort to keep local trade in the Valley for Valley firms.

Mr. Neil Gregory brought a poem (?) into the office this week and threatened us with all kinds of punishment if we did not print it. No, it was not one of his own composition, but simply one that he had clipped from "Fairplay," a Vancouver publication. Under this compulsion, which reminds us somewhat of the brand of compulsion which Falstaff was acquainted with on one particular occasion, we are printing it—with great reticence, of course, but as Mr. Gregory gave us full permission to blame him for it we feel we have ample excuse. It seems that at a banquet in Eastern Canada at which 500 railway men were present, there was a C. P. R. official from British Columbia who had just been attending a meeting of the Board of Missions in Vancouver. It seems strange that a C. P. R. official should go to a missionary meeting, but no doubt there was some business hanging to it somewhere. At this meeting they had sung that grand old hymn, "From

Greenland's Icy Mountains," and the words kept running through the official's mind. On his way back East in the train, having nothing better to do, he apparently composed a parody on the hymn, and the poetic gem which resulted is what he recited at the banquet and is the one which we are asked to (dis) grace our columns with. Here it is:

From Nelson's icy mountains
And Alberta's endless gale,
Where the old and ruby soakers
Exist on ginger ale;
From many a winding river,
From many a rolling plain,
We come to the only haven
Where we look on a drink again.

What though the softened breezes
Blow o'er Vancouver's Isle,
Though every prospect pleases
And only beer is vile;
We look for the holy spirit
That our boyhood days recall,
So the Heathen when he's thirsty
Makes straight for Montreal.

Can we whose lips have tasted
The Gordon Gin when dry,
Can we to men benighted
The "cup o' Life" deny?
Damnation, oh! Damnation,
I wish we could proclaim
Who started Prohibition?
Let's have the Blighter's name.

Immortal Kipling tells us
The ever truthful tale,
The female of the species
Is deadlier than the male.
So Carrie Nation did it
With her hatchet and her tracts,
And we got our Prohibition
Where the chicken got the axe.

May he in Hell be roasted
And tortured by Old Nick,
Who expurgated liquor
And took away the "kick,"
Which sends us home to dinner
Bereft of all the glee
To go through life with a sober wife,
And a belly full of tea.

Benvoulin Items

Mrs. E. A. Day received a telegram from her son, Pte. Emmett Tutchter, last week, saying he had arrived in New York. Pte. Tutchter spent a year in France and took part in some of the big battles. He was slightly gassed a short time before the armistice was signed.

George Day arrived home on Friday from the Coast, where he has been attending University.

We are glad to welcome back to our community Mr. Hill and his family. Mr. Hill has accepted a position with Mr. A. Creighton, his former employer.

Mr. Stewart and family have moved from the house on the Mapin Ranch to the K. L. O. Bench.

Mrs. F. Small and family have moved into the house on the Mapin Ranch.

OVERSEAS TROOPS JOIN IN VICTORY MARCH

Twelve thousand troops of the British Dominions participated in a victory march at London on Saturday. Canadian, Australian, New Zealand, Newfoundland, South African and West Indian soldiers were in line. The parade started from Hyde Park shortly after noon. King George took the salute at Buckingham Palace, where Queen Mary, the Prince of Wales, Field Marshal Haig, War Minister Churchill, Secretary Daniels and other notables were gathered. Tens of thousands of persons cheered the marchers. The route was gaily decorated with flags and bunting. Twelve Canadian airplanes performed stunts overhead.

Glenmore Notes

Glenmore is gladly welcoming back to the valley several of its men who went to the front. Sergeant F. Paul, formerly head irrigator for the Kelowna Irrigation Co., has been in the valley for several weeks. Mr. J. Roberts was joined last week and Mr. S. Nobbs, who joined the Royal Navy in 1914, returned at the end of April and is taking up his former position as Water Bailiff for the Kelowna Irrigation Co. Mr. J. Calderbank is expected in shortly. Among the returned men working on ranches now, may be mentioned Messrs. A. R. Morer, F. Daubney and A. Hennigan.

Soft fruit spraying to the south finished in April. One rancher here sprayed last week. How far he hauled the water is a matter for speculation.

Tent caterpillars are emerging from their winter sleep. Destroy them in the early stage and prevent the unsightly webs on our trees and the destruction of the foliage.

May 15th is very close now. Are all prunings burnt?

Recent papers have a thirty days' notice dated April 22, to the effect that the Department of Public Works will prosecute offenders who damage the public highway by overflow water from irrigation ditches.—Highway Act, 1913.

Complaint is made of the state of the roads and the small amount of work done on them for the taxes levied for their upkeep, but it is up to all to see that neglect of the resident or taxpayer does not cause damage.

The regular monthly meeting of the U. F. B. C. will be held in the Glenmore School House on Monday, May 12, at 8 p.m. Matters of importance to all will be discussed, one of them being the "Rural Mail." As the present mail carrier finishes his term shortly and no successor is forthcoming, it is time for all to come to discuss the subject and make suggestions for its continuance. Having enjoyed this benefit for years, who would wish to forego it? It is hoped to have a record attendance at this meeting. The membership committee has been busy and several new members will be particularly welcomed.

The tractor humming merrily and a new car running round, are but two of the signs of the times.

It is to be hoped that the frosts following Sunday's welcome rain did no damage to cherries, etc.

"Dry Valley," the old-timers' name for Glenmore, is the title best suited this season. May be, if those in authority had hauled water for stock three times a week for the past five months, repairs might have been finished in time for an early supply of water. Increase of labor (help is plentiful) would have shortened the repair period. Last season, ranchers were given a chance to fill up their supply barrels but this season even this has been denied except on the main ditch for a few hours. How does it tally with: "Glenmore will have domestic water under pressure, electric lights from the city, telephones and daily mail delivery, and these things are expected for the season of 1912."

James Dunsmuir, of Victoria, is said to have purchased the Reco mine at Sandon from J. M. Harris and Fred Kelly for \$250,000.

OPPORTUNITY for Retail Merchants

THE next few years will mark a tremendous change in the business of retailing.

Motor Transportation, now reduced to a low-cost basis, gives retailers a great opportunity for business growth because it widens their trading area.

The Ford One-Ton Truck makes available this opportunity. It is Motor Transportation at low cost—low first cost, low maintenance cost, low operating cost.

A small outlay will motorize

your deliveries and open to you the opportunity for business expansion.

Complete Trucks—Two Standard Bodies

Ordinary hauling and delivery work can be best adapted to two standard types—the Stake Body and the Express Body.

These two body types are kept in stock ready for immediate delivery. They insure the maximum efficiency from the Ford Truck.

Both types have the Enclosed Cab with the two-way windshield which gives the driver proper protection from the weather.

See these complete trucks. Seize the opportunity to enlarge your field of business. Let us solve your delivery problem.

Orchard Cover Crops

The Uses of the Various Varieties and When They Should Be Grown

The main uses of the cover crop in the orchard are: to hold the snow in winter, and thus afford greater protection to the roots of trees; to prevent the thawing and freezing of the ground; to lessen the depth to which the frost will go in the soil; to furnish vegetable matter in the spring for the purpose of obtaining humus and nitrogen; and to act as a catch-crop in autumn to prevent the leaching of plant food made available during the summer. The cover crop is also a means of reducing the moisture in the soil by transpiration, and thus aids in ripening the wood of fruit trees liable to be injured. Where the soil has been long cultivated, and needs additional plant food, especially nitrogen, leguminous plants, such as clovers and vetches which will take free nitrogen from the air, and thus add a large quantity of this useful and expensive fertilizer to the soil at slight cost, are usually best; while where the soil has not been long under cultivation and is well supplied with humus and nitrogen, a non-leguminous plant such as rape or buckwheat may be better, as the holding of snow and the protection of the roots of the trees are then more important than adding fertility to the soil, especially where the snowfall is light.

In the colder parts of Canada, where there is usually plenty of moisture in summer, it is better to sow seed for the cover crop in the first half of July or even in late June, rather than in the second half of July, as it is important to have the wood of trees thoroughly ripened before winter sets in, and by sowing the seed early the growth of the tree should be aided in ripening by the drying of the soil caused by the transpiration of moisture from the growing cover crop. In the dryer and milder parts of Canada it is not necessary to sow seed for the cover crop until about the middle of July, as the early ripening of the wood is not so important as the conserving of moisture in the soil by cultivation through the early part of the summer. No nurse crop is, as a rule, necessary. Some of the desirable characteristics of a good plant for cover crops are, first that it will germinate quickly and grow rapidly, so that weeds will be checked. It should be a strong grower, as there should be a dense cover to prevent the frost from penetrating deeply into the ground. It should stand fairly erect, so that it will hold the snow well in winter. It should also be a plant which can be easily handled in the orchard. In districts where there is danger of making the soil too dry by late growth, a cover crop should be chosen which will be killed by early frost, such as buckwheat. Some of the best plants for cover crops are: Mammoth red clover, common red clover, crimson clover, hairy vetch, summer vetch, buckwheat and rape. The last has been found very useful on the prairies for holding snow. Where weeds are not liable to spread into adjacent areas and cause extra labor they make a fair cover crop if allowed to grow up after the end of June.

"Y" CANTEN PRICES IN THE OLD COUNTRY

An interesting memo on the above point has been issued by the Canadian Y. M. C. A. in England, and it shows that all the most popular commodities, such as tobaccos, cigarettes, and jams, are controlled in price by the manufacturers or the government. When tonnage from Canada to England was granted the "Y" applied for license to bring in cigarettes and tobacco free of duty, but the request was refused. Since much of the stock is advertised in newspapers at a stated price, the manufacturers cannot see their way clear to permit the "Y" to sell below those prices to soldiers.

Canadian chocolates, even with the added expense of duty and carriage, are sold in Britain at the same price as in Canada. A large proportion of the sales at the canteens consists of coffee at a penny a cup and buns at a penny that cost the wholesale never less than ten pence a dozen and sometimes eleven pence.

The policy of the "Y" in canteen prices is evidenced by the following minute of a decision in July, 1918: "That in no case should 'Y' prices exceed those of other canteens even if the goods must be sold at a loss."

The worst blizzard recorded in many years for the time of the year swept over Calgary last Friday night. The storm reached its height at 8 in the evening, and at that time was raging in many portions of the province. At many places around the Calgary and Lethbridge districts the snow reached a depth of between two and three feet. Farmers are said to be rejoicing over the fall.

Controlling Potato Diseases From Start

Some Abridged Notes on How to Spray and What to Spray With

Potatoes are plentiful this spring. Procure your seed from a field which produced a good heavy crop the previous year. The smooth appearance of the seed alone is no guarantee of a heavy crop. Disinfect the potatoes before cutting the seed. Soak them for three hours in a barrel containing either of the following solutions: Corrosive sublimate: 2 oz. in 25 gallons of water. (Note: Fatal poison to man and beast.) Formalin: 1 pint in 25 gallons of water.

In cutting for sets, throw out all potatoes showing rot or brown spots, or rings near the stem-end and in the flesh.

Cut the seed immediately before planting. The longer you keep them cut, the smaller the yield. Be prepared to meet the ravages of the potato bug. Spray your potatoes. Spraying pays! Use poisoned Bordeaux mixture. The poison for the bug, the Bordeaux for Late Blight. This is the solution: 6 lbs. bluestone, 4 lbs. lime, 40 gallons water. Dissolve bluestone first in 15 gallons of water. Slake the lime in another vessel, strain it if lumpy. Pour both solutions together and make up to 40 gallons by adding water. Add arsenate of lead paste, 2 to 3 lbs. per 40 gallons of solution; or use 8 oz. Paris Green and 1½ lbs. of arsenate of lead for 40 gallons solution. Stir well, and fill pump through fine meshed sieve. Particles will clog nozzles and are most annoying. Spray thoroughly, and cover all leaves well with spray. Don't drench. Commence as soon as the plants are a few inches high and continue every two weeks throughout the season.

For a large field use a high pressure horse power outfit. For smaller areas, there are many good hand-sprayers on the market.

Get your spray chemicals right away and arrange for the purchase of a sprayer; sometimes it is a good practice for several farmers to club together and buy a good power sprayer.

Watch the field, and throw out any sickly-looking or dying individual plants. Mark the one hundred best hills for future seed supply. From these select 80 which yield the largest number of uniform potatoes and plant these separately next year; and increase this practice until your strain yields highest in the neighborhood.

THE HITCH IN THE PRICE OF RASPBERRIES

Importation of Fruit for Jam May Seriously Affect Small Fruit Growers

Recently a statement was made in the press that the jam manufacturers would import raspberry and other fruit pulp from Australia this year rather than pay the price demanded by the B. C. small fruit growers.

Mr. Munson, a government fruit inspector for the Chilliwack Valley, states that the growers of Hatzic and other sections are asking 15 cents for their fruit. The Australian supply is limited, and if brought in would cost the jam factories in the neighborhood of 14 cents a pound. The cost to the growers this year would be unusually high for picking, 3 to 4 cents, and with the exceptionally high price of labor in caring for the plants, it was only right, he thought, that the growers should have a percentage of the extra profits that the jam men are saving by the new processes of manufacture.

Finished jam, said the fruit inspector, was bringing on the retail market 25 cents lb. approximately. The difference between the price asked for the fresh fruit and the 25 cents for the finished product would leave a margin from which the manufacturer should be able to make a good percentage of profit. "The farmer and the fruit grower have been too long deprived of a share of the excess profit which the consumer has been compelled to pay." The factories are at present offering the growers 12c.

FIVE MILLION DIED OF "FLU" IN INDIA

Almost five million persons have died in British India from Spanish influenza, and fully a million others are believed to have died in the native states from the same cause, according to a report of the Indian government made public here. The area affected contained a population of 238,026,240, and the number of deaths was 4,899,725, or 20.6 deaths a thousand. In a few months, it is observed, influenza claimed half as many victims as did the dreaded plague in a period of 20 years.

SALE OF WAR SAVINGS STAMPS WILL CONTINUE

The report that the sale of War Savings and Thrift Stamps is about to be abandoned by the Dominion government is denied in the following statement issued by the Minister of Finance:

"The war savings movement is gaining momentum, the sales increasing with each month. It is however an experiment and, if after a fair trial, it be found that the movement on the present lines is out of proportion to the success attained, the question of discontinuing active propaganda will then have consideration.

"In any event war savings and thrift stamps will be on sale for public purchase during the entire current year and as large a measure of volunteer support as possible will be welcomed."

Mrs. W. Will
Pardon
Us

In a letter to us this lady says in part: "It is the nearest approach to fresh milk and cream."

"It is made in B. C., which appeals strongly, and is one of the few commodities made in the Province which are as good, and even better than their imported rivals."

Mrs. W. asked that her name be not published but she will pardon this liberty with her initials, we are sure.

BOY SCOUTS' COLUMN

Troop First! Self Last!

Edited by "Pioneer."

Orders by command for week ending May 17, 1914

Duties: Orderly patrol for week and also for week following, Eagles; next for duty, Otters.

Parades: The combined troop will parade at the club room on Monday and Wednesday, the 12th and 14th of May, at 7 p.m., and on Thursday afternoon, provided we can arrange for a half-holiday for the Scouts and Cubs from school, a full rehearsal of the entertainment will be held, commencing at 2:15 p.m. On both Thursday and Friday evenings the entertainment commences at 8:15 o'clock sharp, and all Scouts must answer the roll call in the "dressing room" to the rear of the stage at 8. The tickets are going well and we would warn purchasers who wish to secure a good seat to come early. There will be 100 reserved seats for Thursday evening only on sale at Crawford's book store, commencing on Saturday of this week.

We expect to again have the privilege of welcoming Commissioner Henegane as one of the audience, and he will also present the badges.

In a recent Column we stated that the subscription to the "Scout" was 75c annually; we were wrong, it is 65¢, which is equivalent to \$1.35. You order it from 28 Maiden Lane, London, W.C. 2, and not from the address we gave before.

Through the kindness of former Troop Leader Anthony DuMoulin, we are just in receipt of the Official Handbook for Canada of the Boy Scout Association, which has just been issued. It is based on the Chief Scout's "Scouting for Boys," adapted to Canadians, and we only wish that the heads of every family in the country would read this book, as well as every Scout, for as an educational, useful and interesting work, it has no doubt few, if any, equals, encompassed in such a small space.

P. L. Tommie Snashell, whose assistance we would value very much at this time, is still a hard-working and active Scout. He and another patrol leader formerly from Kamloops, are in charge of Vancouver XIth troop in the absence overseas of the Scoutmaster and Assistant Scoutmaster, and the Commissioner says we can be proud of him. Good work, Tommie!

BIG MAY 24 PICNIC AT EXPERIMENTAL FARM

Empire Day is to be Summerland's big day. For some weeks plans have been forming for a monster picnic at the Experimental Farm there. The idea seems to have been first advanced by the Summerland branch of the B. C. F. G. A., and has since been taken up jointly by other local organizations as well, including the Farmers' and Women's Institutes.

Invitations have been extended to similar organizations of Kelowna, Peachland, Naramata, Penticton and Kaleden to join the people of Summerland in this big basket picnic.

The sports features of the day's programme will be arranged by Summerland and the ladies will provide tea, coffee and milk. Join the crowd at the Experimental Station, Summerland, on Empire Day, Saturday, May 24. A full day of sport and pleasure.

POSTAGE STAMP ISSUE

The postage stamp issue during the last fiscal year shows an increase of \$996,568.44 over the previous fiscal year "thus exemplifying the steady progress of the Dominion in trade and population, of which the issue of postage stamps is a fair indication," says the report. The figures are as follows:

Fiscal year 1916-17 \$23,174,601.59
Fiscal year 1917-18 24,171,170.03

Credits of \$75,000,000 have been established in Europe by Canada and \$25,000,000 more is likely, but according to the Canadian Trade Commission this only touches the fringe of the world-wide trade openings.

School Column

By JAMES GORDON, Principal.

Attendance Report

Div.	Enrolment	Number present	Percentage
I.	29	9	91.19
II.	31	15	81.00
III.	36	14	85.90
IV.	36	21	90.77
V.	40	23	86.06
VI.	37	17	85.70
VII.	39	22	83.61
VIII.	33	17	89.00
IX.	37	14	74.00
X.	37	16	81.64
XI.	35	7	64.28

Total enrolment, 390.
Average percentage, 83.02.

The Nelson shield is awarded to Division IV. (Miss Hunter's). The Entrance class has the highest percentage but does not compete for the shield. The low percentage of the school attendance is due to the continued presence of mumps.

The total amount of Thrift and War Savings Stamps among the children of the public school is now \$377.25. Miss Ritchie's room has the greatest number of savers, 14, while Miss Hunter's room has the highest amount of savings, namely, \$61.25.

Canadian Women's New National Work

Important That Home Produced Goods Only Be Bought

The Canadian Trade Commission has a wide-extended undertaking to promote expansion of Dominion after-war trade. A return to pre-war standards cannot meet our need. Our war debt in four years has run up to nearly \$1,500,000,000. The interest payment on this will demand the most alert business gifts of the people. The whole-hearted support given by the women of Canada, singly or through their organizations, to food control and other war work showed how great their collective influence could be.

For the immediate future women should influence all purchases for the home to be of Canadian-made goods and products. This will give employment to returned soldiers and to the many thousands who were formerly in munition-making and other war work.

Women will realize that every dollar sent out of the country for those things which can be produced at home adversely affects the financial situation. As the women of Canada buy about 90 per cent of all that is used in domestic life, the first thing towards relieving and safeguarding the situation, is their grasp of this all-important fact. When that is once clearly understood they will gladly, as they did in food control, bring about a reform.

For every million dollars retained in Canada by a refusal to buy other than Canadian goods, a year's unbroken employment can be given to at least 1,000 people.

Large quantities of goods which are of particular interest to women have been for years imported into the Dominion, when many of them would have been, had we known what could be effected by patriotic co-operation such as marked war work, manufactured or grown within our own border. The one outstanding thing for our national financial betterment is that we at once check the flow of money outwards, and that we do everything possible to turn the stream of money inwards to Canada. That is, we must spend less abroad; we must sell more abroad.

VANCOUVER WOMEN THREATEN ALDERMEN

Members of the Citizens' Union of Vancouver, a women's organization, waited on the city and police committee there last week demanding that the aldermen take action to reduce the cost of living. One proposal made by the spokesman, Mrs. A. Bolland, was that an investigation be held in the conduct of Water street commission firms. She contended there was a corner in such articles as butter and said the effect of this was that women and children whose husbands were earning modest wages were being forced to go without the necessities of life. If the council did not do something, she declared, it was up to the women to take up the cudgels and act in their own behalf to "break down the profiteers."

The Monetary Times' estimate of Canada's fire losses during April, 1913, was \$1,089,070, compared with \$2,154,095 in March and \$3,240,187 in April, 1912. The municipal bond sales in April, 1913, totalled \$1,549,203, compared with \$1,899,514 for the previous month, \$3,968,995 for April last year, showing a small decrease for the month and a decrease for the year.

visions of Section 6 of the Water Act 1914, every
riparian proprietor claiming any right to divert
water or to the exclusive use of water for any pur-
pose by virtue only of his being such riparian pro-
prietor is required on or before the first day of June
1919 to file a statement of claim setting forth the
particulars of his claim. Such statements of claim
shall be filed in duplicate with the Water Recorder
of the Water District in which the Water Recorder
is diverted or used.After the first day of June 1920 no right to
divert water or to the exclusive use of water for
any purpose shall exist by virtue only of any
ownership of land.Forms of statement of claim can be obtained
from the Water Recorder of the several Water
Districts in the Province or from the Comptroller
of Water Rights, Parliament Buildings, Victoria,

noon, May 13, at 3 o'clock, in the
Baptist Church. A full attendance is
requested. Special business: Annual
election of officers. Visitors heartily
welcome. 42-1p**NOTICE**WHEREAS considerable damage
has been caused to the Public High-
ways during recent years by water
being allowed to overflow from irri-
gation ditches, etc., and whereas such
a condition is also a serious menace
to the safety of the travelling public;
the attention of all water users and
others is called to the Highway Act,
Chapter 29, Subsections 6 and 7 (1913),
which provides a penalty for the in-
fringement thereof.This practice (of allowing water to
overflow onto the Public Highway)
has become so general that the De-
partment of Public Works has no
other recourse but to prosecute of-
fenders under the Act, and it is the
wish of the Department to warn all
and any of such offenders that they
will be summarily dealt with thirty
days after the publication of this
Notice.Copies of the Act can be seen at the
office of the General Road Foreman,
Summerland.W. K. GWYER,
District Engineer,For Hon. Minister of Public Works.

BRITISH COLUMBIA
In Probate**IN THE MATTER of the Estate of
John Morrison, late of Ellison,
near the City of Kelowna, in the
Province of British Columbia, de-
ceased.NOTICE IS HEREBY GIVEN
that all creditors or other persons
having any claim or demand against
the estate of the above-named de-
ceased, who died at Kelowna, in the
Province of British Columbia, on or
about the 1st day of March, 1919, and
probate of whose will was granted to
Annie Morrison, of Ellison aforesaid,
on the 28th day of March, 1919, are
required to send in their claims to the
said Annie Morrison of Ellison aforesaid,
or to the undersigned at Kel-
owna, B. C., on or before the 17th
day of June, 1919, after which date
the estate will be dealt with, having
regard only to the claims and de-
mands then received.Dated at Kelowna this 17th day of
April, 1919.39-5 Solicitors for the Executrix.
BURNE & WEDDELL,**IN THE MATTER OF THE
ESTATE OF MARY HERERON,
WIDOW, DECEASED**NOTICE IS HEREBY GIVEN
that all persons having any claim or
demand against the estate of the
above named deceased, late of Ke-
lowna, in the Province of British Co-
lumbia, who died on the 8th day of
January, 1919, are required to send in
particulars of their claims, properly
verified, to the undersigned, on or be-
fore the 20th day of May, 1919, after
which date the executors will pro-
ceed to distribute and deal with the
estate, having regard only to such
claims as shall have been received by
the said date.

Dated this 8th day of April, 1919.

Nations Agree as to Care of War Graves

No Bodies Will Be Exhumed in
France Except With Permission
of Imperial Commission

Hon. N. W. Rowell, president of the privy council, tabled in the House of Commons, the copy of an agreement between the British and French governments respecting British war graves in France. The agreement recognizes the Imperial War Graves Commission as the only British authority charged with the care of British military graves in France.

The second article of the agreement deals with the removal of bodies interred in isolated cemeteries to military cemeteries. The third article provides that bodies interred in cemeteries or in military graves shall not be exhumed for transport to the United Kingdom or any other part of the Empire without the approval of the Imperial War Graves Commission.

The French government undertakes to instruct the prefects to refuse all applications for permission for the removal of bodies unless proffered through the commission.

There have been busy days in the harvest fields of death lately. Fifteen million new-made graves are scattered over the lands of the earth or hidden away in the depths of the sea.

From the best information obtainable, the total death statistics of fighting men are as follows: Germany, 2,000,000; Austria, 1,000,000; Turkey, 250,000; Bulgaria, 150,000; Russia, 2,500,000; France, 1,300,000; Great Britain, 800,000; Italy, 500,000, and the United States, 50,000. In addition to which there are the millions who gave the blood of their hearts for Belgium, Serbia, Roumania, Montenegro and other countries. So, if all the soldiers could come marching back from their graves today, they would form an army not less than 9,000,000 strong.

PREMIER CLEMENCEAU STILL IN DANGER

Another attempt against Premier Clemenceau apparently has been frustrated by the arrest of a 19-year-old youth, who was seized near the entrance of M. Clemenceau's home.

The youth, whose name is Cornillon, was carrying a stiletto and had in his possession anarchist literature. He declared that he did not want to kill the premier, but desired only to make a "gesture."

Cornillon was acquainted with Emile Cottin, who recently shot M. Clemenceau.

CANADIAN FLYER HAS SECOND PLACE

The Air Ministry has decided that so far as can be ascertained the champion British airman of the war was the late Major Edward Mannock. Lieut.-Col. Bishop, the Canadian aviator who won the Victoria Cross, comes next.

Major Mannock brought down 73 enemy machines, and Lieut.-Col. Bishop 72.

Of all the Allies, Lieut. Rene Fonck, the French ace, holds the record, with 78.

6th Annual Entertainment OF THE

KELOWNA BOY SCOUTS

Assisted by the WOLF CUBS

At the Kelowna Theatre

THURSDAY and FRIDAY, 15TH and 16TH May, 1919

Commencing at 8:15 p.m.

PROGRAMME INCLUDES—Songs, "Home Again," "The Motor King," and "O, How I Hate to Get Up in the Morning," etc.; Exhibitions of Signalling (Morse and Semaphore), Physical Training, and Knot Tying; Bugle Band Marches and Calls; Presentation of Badges by Commissioner Heneage, and a Sketch in One Act, "The Dentist's Den," etc.

ADMISSION, ON THURSDAY—For Everyone, 50c, and 100 Reserved Seats only, on sale at Crawford's Book Store, at 75c.
ADMISSION, ON FRIDAY—For Adults, 50c, and for Children, 25c. No Reserved Seats.

The KELOWNA THEATRE

Two Shows, 7.30 and 9.00. Matinee Saturday, 3.00 p.m.

SATURDAY—"The Frozen Warning." Charlotte, the world-famous skater, is the star. Also a good comedy.

TUESDAY—Alice Joyce in "To the Highest Bidder," "The Woman in the Web," and a comedy.

WEDNESDAY—"The Soul of Buddha," with Theda Bara.

MAY 28 and 29—"The Better 'Ole."

COAL OIL GAS FUEL

"Ellsworth Burner"

Can be Installed in your Range, Stove or Heater—the fire is economical; saves labour; no waste of heat; does the cooking more evenly than wood or coal.
